## WINE LIST & PASSION

### AUTUMN/WINTER 2025-2026

At Simeon's American Bistro, we've designed our wine program to celebrate both *Tradition* – with 1er and Grand Cru selections as well as *Innovation*, - with Bio-Dynamic and even Organic wines.

We proudly feature self-curated selections that highlight our “By the Glass” program with Bottle Purchase Discounts on those selections, regional treasures from here in the Finger Lakes, a passionately deep focus on Cabernet Sauvignon and blends from the Napa Valley, as well as rare global classics from our Simeon's Dean's List “Library” collection. To share exceptional bottles by the glass, we also feature the *Coravin Wine Preservation System*.

If there is anything that you do not see but would prefer, please let us know. We could have something similar or even just what you're looking for buried not so deep within the collection. A collection that is some two hundred plus labels wide and over fifteen hundred bottles deep. To those ends, we do feel we have more than a little something for everyone, and...

*We Sincerely Hope You Enjoy*

## FEATURED WINES & CORAVIN POURS

The **Coravin Wine Preservation System** is designed to pour wine without removing the cork, so wine always tastes like it has just been opened. The non-coring “Surgical Stainless Steel” Coravin needle gently passes through corks without displacing cork material. Once the needle is removed, the cork simply expands back to its normal shape. As wine is extracted through the needle, it is replaced with pure tasteless, odorless, Argon Gas, ensuring Oxygen never touches the remaining wine, keeping it as fresh as the day it was bottled. This allows Simeon’s Guests to sample some of our “Library Selection Wines” By The Glass... rather than committing to an entire bottle, yet these bottles are further discounted for your consideration.

## **SIMEON'S FINGER LAKES FOCUS**

Officially established in 1982, the **Finger Lakes Region** has a storied history of wine production in New York State and is currently recognized the world over. Our deep glacially formed lakes offer sublime growing conditions thanks to the sloping hillsides and moderating effect the lakes have on the temperature of the surrounding area. The main growing regions are centered around Cayuga Lake and Seneca Lake (which each have their own AVAs), but quality wine is being made throughout the region. Riesling is, of course, the belle of the ball in the Finger Lakes (Oftentimes being compared to the world-class Rieslings of Germany and Alsace), yet success has been had with other varietals, too.
